

August 4th 2014

To whom it may concern:

I had English lesson with Ms Dariya Dziuba from April to July 2014 for a total of 30 hours, divided into 20 lessons of 1,5 hours each.

I was classified as an intermediate-advanced student, and I wished to improve my English speaking and writing for business purposes.

My general appreciation is excellent and some specific aspects I want to highlight are:

The flexibility and availability such private courses offered and, by the way, Ms Dariya was able to accommodate

She found the way to adapt and adjust the lessons depending on my needs for business purposes, and also to my learning difficulties.

She structured the process and the content of each lesson in a way that I had to talk and read a lot and she took the time, with patience and a high level of respect, to help me with my pronunciation, intonation, verbs tense, etc.

She also introduced a lot of real cases simulations which have dynamized our exchanges, and many of those have been really useful at work.

She was able to establish a very helpful, pleasant and professional relationship.

In a few words I do not hesitate to recommend Ms Dariya as a professional English teacher.

Best regards
